File

TO: Secretary Mooney

The inventory you requested of Department heavy equipment suitable for hazardous waste operations in Bullitt County is attached.

I recommend the following as usable and available:

Orphan Lands: Backhoe; 2-ton dump truck; low-boy to transport above and to be used on site. Tim Koch can release.

Forestry: Farm-type tractor to pull low-boy loaded with drums on site. Charlie Collier at H.M.W.M. says this is needed. Elmore Grim has 8, can spare one despite heavy seasonal use.

H.M.W.M.: Collier says he can arrange operators for all of above.

MEMO

TO: JACK McCLURE

Procedure for soliciting proposals for hazardous waste sampling and the authorized request form are attached.

The "Agency Request for Quotation" (for which an auditable file must be maintained) is normally submitted by the division concerned. However, I recommend it be handled by my division in coordination with your office.

Ancillary poop:

- (1) The request for quotation must give vendors "sufficient" time to reply. Standard time is usually ten days to two weeks.
- (2) We will need close coordination with HMWM division to determine vendors to address and technical requirements of the bid request.
- (3) A specific problem is the location of the drums on private land.

The following questions must be resolved:

- (a) Will vendors be given authority to visit the site prior to submission of bid?
 - (b) Can we give this authorization?
 - (c) Will the vendor awarded the contract have any problem getting to the location to perform the work?
- (4) Other questions:
- (a) What is a representative sample of drums?
 - (b) Do we want bids per drum sampled or for the job as a whole?
 - (c) Is there a time limitation both to begin and complete the task?

Please contact me or Irv Pope as soon as you decide how you want to handle this.

SUBJECT: Procedures, Sampling "Valley of Drums"

I discussed the necessary procedures to take a sampling of barrels for Hazardous Waste with Ken Medaris. He felt the most expeditious way of handling this situation was to go out on an "Agency Request for Quotation." This could either be done by the Division or through our office. If any of the bids received are under \$1000, we can award the contract. If they are all over the \$1000 limitation, I will need to recontact Ken Medaris to establish a contract.

Let me know what action you wish me to pursue in this matter.
